D. J. HARRIS

SHAVING AND HAIR-CUTTING

SALOON.

All work done in the most advanced style of the art.

ALL BORTS.

—Lung Protectors at Thaxter's Drug Store.

—For cold feet, get a Hot Water Bag at Thaxter's.

—Hem-stitched Silk Handkerchiefs, twenty-five cents a piece, at Olcovich Bros.

—If you want to inspect a fine line of rubber goods before the next thaw go to Joseph Platt's.

—Snow is over 20 feet deep in some places between here and Tahoe, but the roads are open.

—George Hark is exhibiting a 900 lb steer at his meat market. It is of course a Carson Valley animal.

—Miss Jennie Campbell has won her suit against Arbuckle in New York and the latter must pungle \$40,000.

—The new Lick telescope on the Mt. Hood Observatory is a success. It reveals wonders in the heavens never before seen by mortal eye.

—President Powning of the State Fair and Secretary Stoddard have been in the city a couple of days settling up the Fair business with the State.

—Mr. Ross Lowery had two fingers and one ear frozen on Monday last whilst attending to cattle at his Franktown ranch, and an employee at Marlette & Folsom's woodyard had one hand so badly frozen that amputation may become necessary.

—No sufferer from any scrofulous disease, who will fairly try Ayer's Sarsaparilla, need despair of a cure. The remedy purges the blood of all impurities, destroys the germs of scrofula, and infuses new life and vigor throughout the physical organization.

—The Lyon County Times has turned another volume. The Times has always been a stout advocate of Lyon County and although several attempts have been made to down this plucky little journal it still comes out regularly and makes its voice heard all over the State.

WINNING NUMBERS.—The following numbers drew the principal prizes in the Louisiana State Lottery yesterday: No. 33,442 wins \$150,000; 73,185 wins \$50,000; 51,613 wins \$20,000; 6,419 and 79,040 each win \$10,000; 34,515, 85,045, 52,447 and 43,937 each win \$5,000. Nevada gets left this time.

Barbed Wire.

The United States District Court in Iowa has rendered a decision in the case for the Washburn & Moen Company vs. The Best 'Em All Barbed Wire Company. The findings are that Alvin Morely invented the same style of barbed wire covered with Glidden patent and exhibited samples in 1859. The decision nullifies the Glidden patent. Relying on this decision all the barbed wire manufacturers will cease paying royalty to the Washburn & Moen Company. This will probably reduce the price of barbed wire, which is used to a great extent by ranchers in Nevada and Eastern Oregon.

OLCOVICH BROTHERS.

GREETING

—TO THEIR—

PATRONS AND CUSTOMERS!

Having sold out all our Surplus Stock at auction, we have decided to discontinue the same, and we are now prepared to sell our well selected and reasonable goods at Private Sale at Unusually Low Figures.

We invite our customers to call and convince themselves.

nov 18,11f Olcovich Bros.

Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

When Baby was sick, we gave her Castor.
When she was a Child, she cried for Castor.
When she became a Man, she clung to Castor.
When she had Children, she gave them Castor.

NORRA'S ROD.

Why Don't He Let the Public In?

There has been a good deal of talk about Norra's divining rod. He claims a good deal for it, and perhaps he can substantiate his claims. If he means business why don't he exhibit his machine in some public hall like the Opera House and let the public judge of his abilities.

There are plenty of people in Carson who would be willing to pay 50 cents a head to see this wonderful apparatus, and the APPEAL, in behalf of the citizens, extends him a public invitation to exhibit his powers in the Opera House. If he can do half what he claims the audience will be perfectly well satisfied. If he shrinks from a public test it shows conclusively that he has no confidence in his alleged discovery.

Intense Cold.

The Silver State expresses the facts as herewith stated: A cold wave of almost unprecedented severity has enveloped the whole northern country since last Friday evening, when the wind suddenly changed to the north and lowered the temperature from thirty to forty degrees in a few hours. At this place according to the Signal office report, the mercury sank to 21 degrees below zero Friday night, to 20 degrees Saturday night, and 23 last night. Seldom indeed has the cold been so intense in this part of Nevada since its settlement by the whites. In the eastern part of the State, in exposed places, the mercury froze in the bulbs of thermometers, indicating a temperature at the least 40 degrees below zero.

According to reports from the northwest this morning the mercury ranged from 26 to 59 degrees below zero last night, the lowest temperature being at Belgrade, Minnesota. The Arctic frigid may continue for some days yet, as the barometer is higher here than it has been for weeks, indicating cloudless skies.

This intense cold is fearfully severe on stock running at large and stockmen in the eastern part of the State where the snow is from one to two feet deep already count their losses at from ten to fifteen per cent, of range stock, but console themselves with the hope that water and consequently feed, will be more plentiful next Summer than for several years past.

After The Mongols.

Senator Stewart has introduced the following in the United States Senate.

Resolved by the Senate, the House of Representatives concurring, That the President of the United States be requested, at his earliest convenience, to negotiate a treaty with the Emperor of China containing the provision that no Chinese shall enter the United States, except Embassadors and others engaged in the diplomatic service of the Chinese Empire and merchants engaged in trade between the United States and foreign countries, and providing further that the United States shall be at liberty to ascertain by such officers or tribunals as Congress may designate whether the Chinese offering to enter the United States are of the excepted classes.

This is the man whom the Anti-Chinese League tried so hard to beat in Ormsby.

E. J. Heins Killed.

E. J. Heins, well known along the railroad in Nevada, he having been in the employ of Sisson & Crocker for years, was run over and killed by the switch engine at Oakland last Friday evening. His head was nearly severed from the trunk, and every bone in his body was broken. Deceased was a brother-in-law of G. W. Coddington, formerly Superintendent of the Humboldt Division, C. P. R. R., and was about 59 years of age.

The Hardest of Combinations.

The delicacy of flavor with the efficacy of action has been attained in the famous California Liquid of Figs. Its pleasant taste and beneficial effects have rendered it immensely popular. It cleanses the System, cures Costiveness, etc. For sale by George C. Thaxter, agent.

PACIFIC COAST ITEMS.

—Stockton has established a free vaccination office.

—The Columbia river at Vancouver, W. T., is closed with ice.

—The people of Redding have organized a company with \$150,000 capital to plant fruit trees.

—Isaac Dean, a rancher, was robbed by two highway-men within a mile of Fresno Sunday night.

—Manuel Pitor, a bandit almost as notorious as Bernal, has been captured and placed in prison at Silver City, N. M.

—Several parties have been arrested on the Gila Bend Indian Reservation for refusing to vacate on the Government's order.

—The barn of J. W. Goss, at Pasadena, was burned Sunday morning, and a tramp is supposed to have lost his life in the fire.

—James H. Kimball was frozen to death while traveling from Alta to Salt Lake, last Saturday. He tried to work his way through eight miles of deep snow.

—The San Bernardino Times says the Tomesca tin mines, near South Riverside, is by far the richest deposit of that ore that has ever been discovered in the world.

—Hanford has an oratorical contest between a farmer and a lawyer. The farmer's oration was the best, but the inferior delivery of the author lost him the prize.

—Three of the Supervisors of Santa Cruz county have been sued for libel for declaring a road an open highway and causing the declaration to be spread upon the minutes.

—A workman named Al Kelly near Colton, on the Spokane and Palouse Railroad struck a stick of giant powder to free it from ice last week. An explosion followed and Kelly's body was literally torn to pieces.

—The camp at Casa Grande, the site of the great stone ruins of the ancient Pueblo people, which are identified with those of Los Muertos by Miss Cushing, is almost overrun with tourists and specimen hunters.

—Julio Suarez and Theodore Mavor, young society gentlemen of Hermosillo, Mexico, fought a duel to settle a quarrel about a lady last Thursday. One was wounded a little below the knee and the other in the mouth, neither wound being fatal.

STEWART'S LETTER.

Lamar's Confirmation Now a Foregone Conclusion.

WASHINGTON, January 9th.—Senator Stewart's letter, announcing his intention of voting for the confirmation of Secretary Lamar, was published in the East as well as the Pacific Coast today, and has scattered consternation among Lamar's opponents. Stanford, Jones of Nevada, Sawyer of Wisconsin, Teller of Colorado, and perhaps the Oregon Senators will vote for Lamar, as well as Stewart. This insures his confirmation.

The Senate Judiciary Committee today practically decided to report the nomination adversely, and tomorrow the committee will formally ratify its action of today. Stewart's letter insures Lamar's confirmation, if there was any doubt of it before.

A Frightful Accident.

HAVERHILL, Mass., Jan. 10.

The Portland express met with a serious accident this afternoon between Bradford station and the Haverhill bridge over the Merrimac river, caused by the rails spreading near a frog on a curve where a turn is made to run on the bridge.

The train consisted of an engine, two baggage cars, smoking parlor and three passenger cars.

The engine passed safely, but the smoker and two cars left the track. The smoking car ran on the bridge and turned over. One coach smashed into the water-tank house and the other through the sleeper. The crash was fearful and the cries of the people terrible to hear. The cars did not take fire. Ten people are known to have been killed and fifty-two injured.

—Stop that cough, by the use of Ayer's Cherry Pectoral—the best specific for all throat and lung diseases. It will allay inflammation, aid respiration, and strengthen the vocal organs. Ayer's Almanacs are free to all. Ask for one.

HOLIDAY
